BLU NOTE + CHAT™

PORTABLE CONFERENCING + WIRELESS SPEAKER

Stream Music Wirelessly From Any Bluetooth® Device + Have High Quality Conference Calls Anywhere

Introducing the **BluNote + Chat™**, the second generation BluNote product from Spracht and first of its kind, Bluetooth® portable dual use device: professional conferencing and full range music playback device.

Best Design • New generation design with Lighter Capacitive Touch Panel Controls (LCTP). Easily fits into a briefcase for transport. Rechargeable, extra capacity Lithium Ion 1500mah battery assures hours of uninterrupted conferencing or music.

Best Quality Conferencing • Utilizes state of the art dual MEMS mics with impedance matching, highest quality DSP for noise and echo cancellation, and passive radiator coupled with dual speakers, to give a natural sound to any voice. When a call comes in, just touch the Phone icon and the music mutes while you take your call. Hang up by touching the Phone icon again and the music resumes. Caller number ID scrolls across the front panel so you can screen calls.

Best Quality Music Playback • Advanced Audio Distribution Profile (A2DP), expanded dynamic range CODEC for full range playback, passive radiator coupled with 2 high quality speakers to give 5 watts of room filling full frequency range sound. Add Bass Boost for concert hall like sound in a small, portable device.

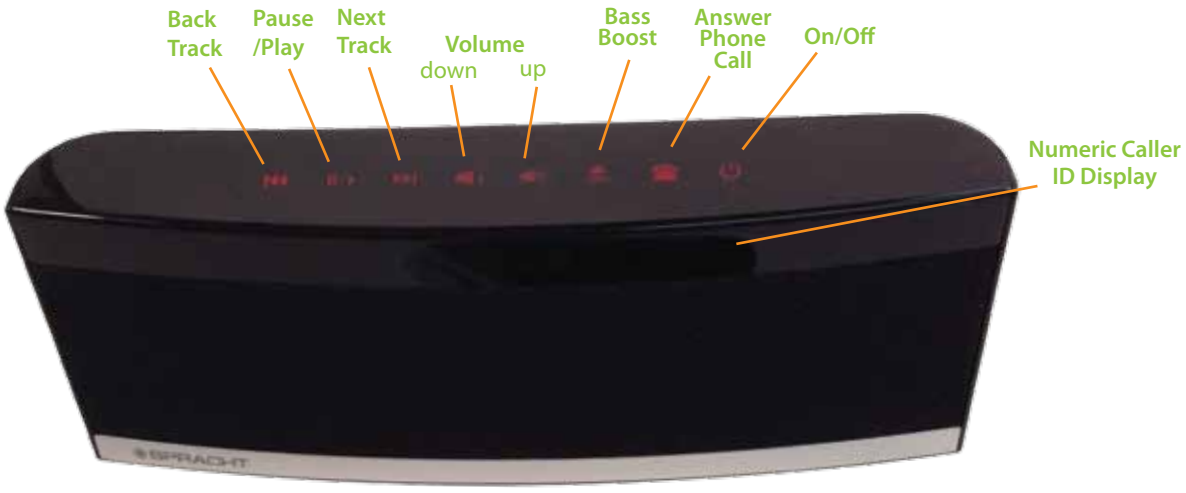
BLU NOTE + CHAT™
PORTABLE WIRELESS SPEAKER



Sleek design, using the newest Lighted Capacitive Touch Panel (LCTP) controls, easy, one button setup, and high quality audio distinguish this wireless portable music and conferencing speaker. Listen to music from your Bluetooth® enabled device anywhere, using the newest audio compression technology that allows audio quality indistinguishable from a wired device. If you're listening to music from your mobile phone, you can also take or make phone calls with the BluNote + Chat™.

PRODUCT SPECIFICATIONS

Features

- A2DP Bluetooth® speaker for high fidelity wireless audio
- Newest generation of expanded frequency for perfect music playback
- DSP (Digital Signal Processing) based noise and echo cancellation
- Make and receive phone calls; Full duplex; Caller ID
- Passive radiator and Bass Boost for rich, deep, bass tones
- Compact and lightweight; rechargeable battery or AC adapter (included)
- Dual MEMS impedance matched mics for high quality conference calls
- Touch panel controls, quick and easy set up

Controls and Interfaces

- ON/OFF
- Answer Phone Call
- Bass Boost
- Volume: Up, Down
- Next Track
- Play/Pause
- Back Track
- Blue LED for Bluetooth® pairing
- Caller Phone Number (ID)

Electrical, Audio Specifications

- Bluetooth® range: 33' (10 meters)
- Playback time (Li ion battery): up to 12 hours
- Audio input jack: 3.5 mm
- Dual loudspeaker output power: 2.2 W x 2 for 4.4 W
- Dual MEMS, impedance matching
- Certifications: FCC part 15 Class B, UL, CSA, TCA, CE, TUV, RoHS

Package includes

- P/N: WS-4012
- BluNote + Chat™ Portable Wireless Speaker
- AC adapter for wall power (120-240 V)
- Rechargeable LI ion 1500 mah battery
- 3.5mm jack to connect to non-Bluetooth devices
- Users Guide / Registration Card

Mechanical Specifications

Dimensions	9" (22.8 cm) L x 3.25" (8.3 cm) H x 1.375" (3.5 cm) W
Weight	9.5 oz. (270 gm)
Operating Temperature	14 - 131° F (-10° C to 55° C)
1 year limited warranty	
Package dimensions 10" (25.4 cm) x 5.75" (14.6 cm) x 3.5" (8.9 cm)
